Product Strategy & Vision

Summary

Lead Full Stack Developer specialized in taking products from zero to launch. Currently leading the engineering team at Ukudala, I currently lead and mentor a small team of developers while maintaining a heavy individual contribution of 2,000+ commits across 14 repositories. I specialize in building scalable systems from scratch using Next.js (App Router) and AWS serverless infrastructure, with a specific interest in optimizing architecture for developer efficiency and performance.

Work Experience

Ukudala | Full-Stack Developer & Technical Team Lead | 2025/05 - now | *(Contractor)*

Engineering Leadership : Coordinated a team of 4-6 developers through technical guidance and vision, acting as a supportive lead to maintain a productive and healthy team culture.

Core Development and UI: Architected a high-performance monorepo to rapidly deploy configurable client portals. Built two full-stack SaaS platforms using Next.js and TypeScript, doubling performance through server-side optimizations and polished, responsive UI.

AWS: Architected a production serverless monorepo powering 2 SaaS products, implementing real-time WebSocket chat, DynamoDB-backed RBAC, and Lambda APIs across 60+ SAM templates.

Tokyo Coding Club | Tech Instructor | 2025/10 - now | *(Contractor)*

Tech Education: Leveraged expertise in React, Python, and JavaScript to design and deliver student-centered curricula. Guided students (ages 5-18) in deconstructing complex programming concepts, helping them build a foundation in algorithmic logic and professional coding habits.

Education & Certifications

Bachelor's Degree

Temple University Japan Campus | 2019/05 - 2023/12
Major in **Art**, Minor in **Computer Science**

Codecademy
(2024)

Front-End Engineering Path

Learn Git & Github

Learn React Course

Learn TypeScript Course

Learn Next.js Course

Udemy
(2023-2024)

Figma UI/UX Design Advanced

Mastering TypeScript

Languages

English - Native Level | **Nepali** - Native | **Hindi** Proficient | **Japanese** Intermediate
