Summary

I specialize in **Next.js**, **React** and **TypeScript**. As a Fullstack engineer and a Graphic Designer, I am well-skilled in all aspects of making a web application. I can single handedly design, program and deploy a full application. I personally excel and enjoy the multiple aspects of frontend. Creating aesthetic and intuitive UI, efficient and effective frontend features and and integrating complex frontend logic such as, authentication, authorization and API integration. I am excited to bring my passion to create efficient, meaningful and visually appealing applications.

Technical Skills

- 1. Frontend** : HTML5, CSS3, JavaScript (**React.js**, **Next.js**, **TypeScript**), UI/UX, Graphic Design, REST APIs
- 2. Backend** : Node.js, Express.js, PostgreSQL, Prisma, Python
- 3. DevOps** : **AWS** (Amplify, Cognito, DynamoDB, Lambda, API Gateway, S3)
- 4. Tools** : Git/GitHub, **Figma**, Adobe Photoshop/Illustrator, Blender3D
- 5. Core** : Responsive Web Apps, Web Accessibility, Performance Optimization (Next.js, CSS)

Education

- 1. Bachelor's Degree** | *Temple University Japan* (Dec 2023)
 - a. Minor in **Computer Science: Python, C, Java, Data Structures, Mathematics**
 - b. Major in **Art** (Graphic Design): **UI/UX Design (Figma), Adobe Suite, Digital Art**

Certifications

- 1. Codecademy (2024):**
 - a. Learn Git & Github (2024/07)
 - b. Learn React Course (2024/08)
 - c. Learn TypeScript Course (2024/08)
 - d. Front-End Engineer Path (Bootcamp) (2024/10)
 - e. Learn Next.js Course (2024/12)
- 2. Udemy:**
 - a. Figma UI/UX Design Advanced (2023/09)
 - b. Mastering TypeScript (2024/08)

Passion Projects

- 1. Pachiku** – *Full-Stack Social Media Platform* | **Next.js, TypeScript, React, NextAuth** | [Visit Website](#)
 - a. Engineered a full-stack social media application using the Next.js App Router, implementing Server Actions and hybrid SSR/CSR for optimal performance and SEO.
 - b. Secured the application with NextAuth.js, integrating Google OAuth and credential login with hashed passwords and protected API routes.
 - c. Designed and managed the database schema with Prisma ORM and PostgreSQL, modeling complex relationships for users, posts, likes, and comments.
 - d. Built a dynamic user interface with real-time like/comment functionality and a custom, responsive neo-skeuomorphic design.
- 2. Developer portfolio**– *Responsive Single Page Application* | **React.js** | [Visit Website](#)
 - a. Designed and Deployed a single-page application with React 18+ and Vite.
 - b. Implemented a mobile-first responsive design, ensuring a seamless experience across all devices.
 - c. Developed complex, interactive UI components including dynamic carousels, and custom effects.
 - e. Architected a clean, modular component structure demonstrating strong code organization and modern React development practices.

Non-Developer Experience

- 1. Leader Teaching Assistant** | *Academic English Program, Temple University Japan (2021–2023)*: Managed multiple classrooms independently; promoted from TA to Leader TA. Mentored 10+ junior TAs.
- 2. Freelance Graphic Designer & Digital Marketer** | *Newa Pasa Restaurant and Bar (Family business)*: Redesigned systems/menu, boosted customer acquisition 50%, order efficiency 100%; influenced key business decisions.
- 3. Leader Designer** | *Uprizine Club (2021–2023)*: Led 40+ member global team to publish 4 digital zines (Adobe InDesign, Illustrator) archived at Temple University.
